Declaration on genetically modified organisms (GMO)
- valid for all deliveries of our company -

Dear Sirs,

With regard to Regulation (EC) No. 1829/2003 of 22.09.03 on genetically modified food and feed and Regulation (EC) No. 1830/2003 of 22.09.03 on traceability and labelling of food and feed products produced from genetically modified organisms (both published in the Official Journal L 268 of 18.10.03), we are naturally checking whether our products could possibly be subject to the aforementioned regulations.

According to our current knowledge, we assume to the best of our knowledge and belief that our products are not subject to the scope of the two aforementioned regulations.

This means that they are neither produced from genetically modified organisms nor do they contain genetically modified components. As a matter of principle, we point out to our suppliers in our purchasing contracts that our raw materials may neither be treated with genetic engineering nor contain genetically modified organisms. We have received corresponding confirmations from some suppliers.

However, for fundamental reasons, this statement cannot be linked to an express assurance of a particular property or quality; we can only confirm that we do not knowingly supply genetically modified raw materials.

This for your information.

Kind regards from Gittelde

Your QM Team of the Alfred Galke GmbH
